

# TAG RETURN

Fish in the area have been tagged with thin, green, numbered plastic tags.

If a tagged fish is caught, please record:

-  date and location of capture
-  tag number (include actual tag if fish is kept)
-  species

Tag return information can be submitted to local band offices, Manitoba Conservation offices, or to North/South Consultants personnel. You may also mail the tag, capture information, and your return mailing address to: **North/South Consultants Inc.**  
**83 Scurfield Blvd.**  
**Winnipeg, Manitoba**  
**R3Y 1G4**

Information received from tag returns is extremely valuable in determining fish movements and population information. Submission of this information is greatly appreciated.
